*For Immediate Release*

## **The Energy Telecommunications & Electrical Association Will host their Inaugural Vendor “Shoot-Out” in Denver, CO**

**DALLAS – September 1, 2009**– The Energy Telecommunications & Electrical Association (ENTELEC) is pleased to announce the return of the ENTELEC Fall Seminar Series on October 21-22, 2009 at the Inverness Hotel and Conference Center in Denver, Colorado.

Take advantage of a golden opportunity to engage key vendors that provide products and services in the Wireless, Process Control, Power, Backhaul and Integrator fields within the Oil and Gas Industry. Vendors will be armed with both Sales and Technical staff in a Panel Discussion format for YOU the CUSTOMER to shoot questions at them regarding solutions, concerns or just to gain an overall understanding of the products and services they provide. Attendees should come armed with questions, or just listen and learn as the shoot out of knowledge unfolds.

The ENTELEC Fall Seminar Series is an industry educational opportunity that will concentrate on a single emerging topic. The conference will span a day and a half and will feature a topic sensitive general session, breakout technical presentations, exhibits and tabletop displays, and several networking opportunities.

The 2009 Fall Seminar theme is “**The Integrated Field of the Future**” and will include technical presentations focusing specifically on this topic and include related aspects such as security, SCADA and controls, mobility and vehicle networking, as well as data gathering and transmission technologies surrounding the new digital field of the future.

For more information about the 2009 ENTELEC Fall Seminar Series, please contact Amanda Prudden at 888-503-8700 ext. 203 or [amanda@entelec.org](mailto:amanda@entelec.org)

###

**About ENTELEC**

ENTELEC is a user association that focuses on communications and control technologies used by petroleum, natural gas, pipeline and electric utility companies. ENTELEC's primary goal is to provide education for its members. To achieve this goal ENTELEC provides an educational platform for these industries, including technical presentations, equipment exhibits and networking opportunities during the annual ENTELEC Conference & Expo. Technological advances in SCADA systems, networking, communications, automation, and leak detection are discussed at each annual event.
