Times Microwave Systems introduces SilverLine Test Cables Equipped with QMA Plugs and Adaptors

Times Microwave Systems has introduced a new series SilverLine test cables and QMA adaptors that eliminate uncertainties in RF power output and sensitivity measurements typically associated with BNC adaptors.

Features and Benefits

- OEM approved by Motorola to replace BNC interface for short wave radio RF testing
- 2500+ mating life cycle interface. Greater than 100,000 cycles flex life performance
- 360° DUT rotation while mated with no RF performance change
- Adaptors available for all popular Motorola radios as well as SMA, N and TNC
- All stainless steel construction for long life
- Accurate, consistent power output and sensitivity test results
