For Immediate Release

The Energy Telecommunications & Electrical Association Assigns more than 60% of the Show Floor

DALLAS – October 30, 2009– The Energy Telecommunications & Electrical Association (ENTELEC) recently concluded its Space Draw process and assigned 60% of the show floor to over 100 exhibiting companies.

Taking place April 14-15, 2010 at the George R Brown Convention Center in Houston, TX, the show will offer pipeline, gas, and electric utility professionals the opportunity to meet with suppliers in over 60,000 square feet of exhibit space.

“We’re thrilled with the number of companies who have committed to the 2010 Spring Conference & Expo,” said Susan Joiner, ENTELEC Accounts Executive. “Attendees will have the opportunity to meet with a variety of suppliers during the show.

Making up some of the key exhibitors already in the show include: Emerson Process Management, Telvent, Solarcraft, Motorola, GE Digital Energy – MDS, AutoSol, ABB Totalflow, Schneider Electric and Control Microsystems just to name a few.

“We’re excited to have so many companies signed up for booth space this year,” said Kenny Brazzale, ENTELEC’s President. “It’s a testament to their commitment to ENTELEC and our industry. The 2010 Conference & Expo promises to be another exciting and successful event.”

Although the Space Draw has concluded, companies can now secure their booth space on a first-come, first-served basis. For more information on available spaces or to see the Exhibitor Prospectus visit us online at www.entelec.org or contact Susan Joiner at susan@entelec.org

The 82nd Annual ENTELEC Conference and Expo will take place April 13-15, 2010 at the George R. Brown Convention Center in Houston, TX.

About ENTELEC

ENTELEC is a user association that focuses on communications and control technologies used by petroleum, natural gas, pipeline and electric utility companies. ENTELEC's primary goal is to provide education for its members. To achieve this goal ENTELEC provides an educational platform for these industries, including technical presentations, equipment exhibits and networking opportunities during the annual ENTELEC Conference & Expo. Technological advances in SCADA systems, networking, communications, automation, and leak detection are discussed at each annual event. For more information, visit www.entelec.org
