For Immediate Release

The Energy Telecommunications & Electrical Association Announces the 2009 Fall Seminar Series – Roundtable in the Rockies!

DALLAS – January 6, 2009– The Energy Telecommunications & Electrical Association (ENTELEC) is pleased to announce the return of the ENTELEC Fall Seminar Series on October 21-22, 2009 at the Inverness Hotel and Conference Center in Denver, Colorado.

The ENTELEC Fall Seminar Series is an industry educational opportunity that will concentrate on a single emerging topic. The conference will span a day and a half and will feature a topic sensitive general session, breakout technical presentations, exhibits and tabletop displays, and several networking opportunities.

The 2009 Fall Seminar theme is “**The Integrated Field of the Future**” and will include technical presentations focusing specifically on this topic and include related aspects such as security, SCADA and controls, mobility and vehicle networking, as well as data gathering and transmission technologies surrounding the new digital field of the future.

“I am thrilled about bringing back the ENTELEC Fall Seminar,” says Greg Vaughn, President of ENTELEC, “This will be another great educational opportunity for the industry and a great opportunity to become better acquainted with the ENTELEC Association on a personal level.”

“The Annual ENTELEC Spring Conference and Exposition brings the most respected experts, peers and companies in the industry together for education, resources and networking opportunities,” says Blaine Siske, Executive Manager for ENTELEC. “We are so pleased to expand these educational and networking opportunities for our members and the industry at the 2009 Fall Seminar Series and to be able to focus more on the emerging trends in the industry.”

For more information about the 2009 ENTELEC Fall Seminar Series, please contact Amanda Prudden at 888-503-8700 ext. 203 or amanda@entelec.org

About ENTELEC

ENTELEC is a user association that focuses on communications and control technologies used by petroleum, natural gas, pipeline and electric utility companies. ENTELEC's primary goal is to provide education for its members. To achieve this goal ENTELEC provides an educational platform for these industries, including technical presentations, equipment exhibits and networking opportunities during the annual ENTELEC Conference & Expo. Technological advances in SCADA systems, networking, communications, automation, and leak detection are discussed at each annual event. For more information, visit www.entelec.org
