FOR IMMEDIATE RELEASE

2020 ENTELEC Conference & Expo Postponed

IRVING, TEXAS (March 12, 2020) - We have continued to monitor the rapidly evolving and very fluid COVID-19 situation. With both Harris County and the City of Houston independently declaring states of emergency, the ENTELEC Board of Directors and staff leadership have made the difficult decision to postpone the 2020 ENTELEC Conference & Expo.

Our top priority continues to be the health and safety of the ENTELEC membership, conference attendees, exhibitors and sponsors. A growing number of our member companies have restricted the ability of employees to travel and attend conferences. Based on the feedback we have received, we feel there is no other choice but to postpone.

The 2020 ENTELEC Conference & Expo will now take place on August 11 – 13, at the George R. Brown Convention Center.

The same program with the same education and training opportunities will take place in the same venue. The Conference will foster the same exchange of ideas, just on new dates!

More information and additional details regarding the 2020 ENTELEC Conference & Expo will follow, please stay up-to-date on our website at www.entelec.org and follow us on linked-in and twitter.

About the Energy Telecommunications and Electrical Association

Established in 1928, the Energy Telecommunications and Electrical Association (**ENTELEC**; entelec.org) is a user association focusing on communications and control technologies used by petroleum, natural gas, pipeline and electric utility companies. ENTELEC's primary goal is to facilitate education for its members. To achieve this goal, ENTELEC provides an educational platform for these industries, including technical presentations, equipment, exhibits and networking opportunities during the annual ENTELEC Conference & Expo.
